MODULE OVERVIEW

The table below provides an overview of your Listed Equity Active Ownership Band. This is based on your score for engagement and (proxy) voting.

If applicable, you will see a separate score for engagements run internally, collaboratively and through service providers. Your engagement score is based on your main engagement approach, calculated using your reported information in indicator LEA 11. Your main approach is based on the combination of the quantity and comprehensiveness of engagements and your role/involvement. The Engagement score is not dependent on how you conduct your engagements and the top score can be achieved regardless of who conducts the engagements. For more information please see the assessment methodology and detailed methodology.

The scores for each applicable engagement approach are presented in more detail in the following pages.
